

MANNS WOODWARD STUDIOS PRINCIPALS

Bio Brief

Robert Manns, Assoc. AIA, is one of the founding principals of the firm and serves as the managing director of design for Manns Woodward Studios. He specializes in providing meaningful design solutions for all types of buildings ranging from single family residences to multi-million dollar commercial projects. Manns is one of the industry's foremost leading experts on building information technology, continually providing cutting edge technological solutions that effectively communicate designs with owners and contractors.

Prior to the inception of Manns Woodward Studios, Manns was a project manager of Edmeades & Stromdahl, Architects + Planners where he oversaw the design and development of many projects. His responsibilities included the oversight of building design and construction, and implementation of Building Information Modeling Standards.

Since 2004 Manns has also served as an adjunct professor at the Anne Arundel Community College Department of Architecture and Interior Design. There he teaches aspiring architects, construction managers and interior designers both advanced and fundamental concepts of design, professional practice, building codes, construction technology and computer aided design.

Previously, Manns has served as a graduate architect for Cherry Wilson Architects of Annapolis, Maryland and an intern architect for Rubeling &
